BUSY BRAINS

LEVEL 1: ABLE

RECALL

Place a handful of treats on the floor, walk away and recall your dog once they have finished the treats. They should run back to you and wait near you. No position required.

DEMO

Watch our video demo to see how these behaviours should look.

Level 1: Able

LOOSE LEAD WALKING

Walk through a course with your dog remaining focused on you and not pulling. The course will have toys, empty food bowls, novel items, people and other dogs around. The course will have left, right and about turns. You may lure your dog past any distractions.

STAY

With your dog in a sit, stand or down, they must remain stationary as you walk 10 steps away, wait 20 seconds, return to them and wait another 10 seconds before rewarding. No distractions.

WAIT

Walking your dog on a loose lead, your dog must come to a stop (within 2 dog lengths) on your verbal cue.

TOUCH

Your dog will come and touch their nose to your stationary hand from a short distance (lead length).

POSITIONS

Your dog must move into a sit, down and stand on verbal and/or visual cues. The order will be: Sit, Down, Stand, Down, Sit, Stand, Sit. (Into and out of every combination.) No luring. Your dog should not walk excessively into the stand.

HIDDEN TREAT

You will send your dog to independently search for a hidden but accessible treat approximately 5 metres away.

MUZZLE

Your dog will voluntarily place their nose into a muzzle or pot and hold this for 5 seconds.
